

TRANS-OCEAN_{INC.}

Thank you for recent purchase of a Trans-Ocean hand tufted area rug. To preserve your new rugs beauty and longevity we recommend the proper care and maintenance techniques below.

Vacuum regularly with an upholstery attachment. Please **DO NOT USE** a vacuum with a beater bar. Sponge spots clean. To clean the full rug, gently rinse with a solution of mild detergent and water. Hose the rug clean and allow it to dry thoroughly.

If long ends appear **DO NOT** pull. This is **not a defect**, it is a normal occurrence in hand tufted rugs and is easily remedied using scissors to trim the sprouted section even with the rug. (shown below)
