4 YEAR FABRIC
PROTECTION**

WARRANTY EXCLUSIONS

Accumulation of stains, soil buildup over time, perspiration, hair and body oil, mold and organic growth are not covered by this warranty plan. Outdoor use is not covered by this warranty.

Fabric treated with Leader's Casual Furniture® 4 Year Fabric Protection offers excellent resistance to staining and improves the ability to remove soiling on fabrics. Once Leader's Fabric Protection is applied, soil, dirt and stains should not penetrate the fibers of the fabric. On most fabrics, spills will bead up; on an open or loose weave fabric, spills will pass through the fabric without staining. Indoor use is covered by this warranty; outdoor use is not covered. The improved ability to clean soiled and stained fabric will make cleaning easier, helping your furniture retain that "new look" longer.

IMPORTANT CARE INSTRUCTIONS

Even with fabric protection applied, it is still important to perform regular maintenance on your fabric by vacuuming to remove soil build up. If you have your upholstery professionally cleaned, you will not void your 4 year warranty.

Leader's Casual Furniture® carries their own Fabric Protection Warranty because the product works. We want you to clean your cushion and keep your set looking great, not worry about a third party insurer telling you cleaned your cushion wrong and voiding your warranty. If you try cleaning and are unsuccessful, call us for additional solutions.

1. FOR LIQUIDS: Absorb as much as possible by blotting, never rubbing, with a clean, absorbent, white cloth or paper towel. Never force liquid through the fabric.

2. FOR SOLIDS or SEMI-SOLIDS: Remove the excess material by gently scraping with a butter knife toward the center of the stain. Once you remove as much solid as possible, use a good cleaner like Zep Upholstery Cleaner or Spot Shot. Both can be found at a home improvement center.
