Online Reviews

Leaders gets hundreds of great testimonials a month. Of all of the customer comments that come to the Distribution Center 97% are satisfied. We need to let people know this by asking our guests to load their experience on internet searches so people can have confidence in Leaders. This helps them decide to buy from you and your store. We are asking each store to be responsible for your location. We will give each customer that brings proof that they loaded their great, good, bad or indifferent Leaders experience on a third-party website for 50% off any accessory. Even a testimonial loaded on the Leaders site counts. If a customer does not have the internet, please suggest that they use the public library to load their experience and qualify for the discount.
