

RATTAN CARE & MAINTENANCE

Supplies Needed

1. Wood Furniture Polish
2. Clean soft rag
3. Vacuum with Soft Brush Attachment
4. Murphy's Oil Soap®

Always wear eye protection to prevent foreign liquid or material from entering the eye.

Cleaning & Maintaining Rattan

Rattan should be maintained like any other wood furniture.

Dust

Dust build up should be periodically removed by using a vacuum with a soft brush attachment.

Soil/Dirt On Finish

First Murphy's Oil Soap® and a soft clean rag to try and remove the soiling. If this does not work use a fine grit steel wool, sand paper, or clean rag with acetone and lightly rub the soiled area. Take care not to take off the finish. If you accidentally do remove some of the finish see "Minor Rattan Touch-Up."

Polishing

You can use any over the counter wood polish such as Pledge® or Old English® as directed on the container to polish your rattan.
