1. Open a Sales Order
2. Use the Product Configurator to properly place the order
3. The Month, Day, Year, and Location fields are used to make a unique item number that is only associated with you order.

The screenshot displays the Oracle NetSuite Product Configurator interface. The top navigation bar includes 'ORACLE NETSUITE', 'LEADERS HOLDING CO.', a search bar, and user information for 'Tim Newton, Leaders Holding Company - *Sales Leadership'. The main menu contains 'Activities', 'Customers', 'Solutions Center', 'Success', 'Products', 'Integration', and 'SuiteApps'. The 'Product Configurator' section has buttons for 'Save and New', 'Save and View', and 'Reset'. The 'Primary Information' section includes fields for 'BRAND' (Perfect Fit Custom Cushions), 'COLLECTION' (Replacement Cushion), and 'STYLE #' (PFIT-DS1 Deep Seating Chair Cushion). To the right, it shows the 'DETAILED SKU' (PFIT-DS1,1406,1602,05,05,22,BRN), 'BASE SKU PRICE' (0.00), and 'UNIT PRICE AS CONFIGURED' (0.00). The 'Item Options' section includes 'PRIMARY FABRIC' (1406 - Germaine Cactus), 'CONTRASTING WELT FABRIC' (1602 - Rumor Nautical), 'MONTH (MM)' (05), 'DAY (DD)' (05), 'YEAR (YY)' (22), and 'LOCATION' (BRN - Brandon). To the right of these options, it lists various 'UPCHARGE' fields, all set to 0.00. At the bottom, there are buttons for 'Save and New', 'Save and View', and 'Reset'.
