

Replacement Cushions

Perfect Fit™ are custom, made-to-order cushions handcrafted in Florida. We only use materials that are UV-stable and easy to clean. Your cushions will get dirty from the environment and use. With very little effort, you can keep them looking new.

We digitally save our patterns forever, making reordering Simple.

Leaders offers protection plans on all our products. You can buy additional accident forgiveness for four years against cuts, burns, or any other accident. Soiling and organic growth are not covered and can be easily cleaned off.

Cushion Care

Drying

After a soaking rain or anytime the cores of the cushions get wet it is best to stand the cushion on end to allow them to drain more quickly. This will prevent mold and mildew growth between the frame and the cushion.

Spot Clean

Spot wash the fabric to clean spills by using a sponge or a soft bristle brush with Meguiar's Extreme Multi-Surface Cleaner. Spray the affected areas and rinse thoroughly. For tough soiling brush area with a soft bristle brush in a circular motion, then

DO NOT MACHINE WASH OR MACHINE DRY THE CUSHION CASINGS. YOU COULD DAMAGE THE SEAMS.

Cushions made from 100% solution dyed acrylic can be cleaned with Bleach. Use a premixed bleach cleaner like Clorox Clean-Up or mix your own and add mild dish soap to loosen soiling if desired. Check a small inconspicuous spot for color fastness before cleaning the entire cushion. Be sure to rinse the cushion thoroughly to remove all the bleach solution.

Fluff and Rotate

The more a cushion is used the softer it will feel. Pillow fill can settle and compress. Rotate seat cushions every cleaning. Fluff and loft pillow and backs to restore the look and make a comfortable sit. Not rotating seat cushions over time may make your favorite seat feel noticeably softer than a seat not used as often. Not fluffing pillows and backs occasionally will cause them to look flat and like they are missing fill.
